High Purity – General Grade Nylon 6,6 and Plus+ Nylon 6,6

Hydrophilic Nylon 6,6 for Liquid Applications

General Grade Nylon 6,6 Cartridges are naturally hydrophilic requiring no surface treatments that can leach into your process. General Grade Cartridges are available in both our standard and Plus+ grades. The Plus+ grade membrane is modified with a high positive charge for removal of endotoxins and small negatively charged contaminants. These cartridges are designed to hold the maximum amount of Nylon 6,6 membrane that can be effectively utilized in a cartridge.
